

P&G is the world's largest and most profitable consumer products company, with nearly \$84 billion in sales and 25 billion-dollar brands. P&G has a big market capitalization, greater than the GDP of many countries, and they market their products in more than 180 countries.

A gangway was made through the production plant to connect the main entrance and the first office building with the central offices on the other side of the plant in a safe way.
